Dear Gary,

The following info was forwarded to me by Tim Edwards. I would like to run a story about this in CNI News. But I need details and clarifications. Can you help?

Where exactly is this place located? What exactly was observed and videotaped at this family's home? Did you see it/tape it? What did the A&E crew see or tape? Do you happen to know if a person named 'Mary Benjamin' was involved in that shoot? What did that crew say to the family that upset them? When did the Bigelow group come into the picture and why? What is the status of those negotiations now? Have the family moved already? Is their property adjacent to other property already owned by Bigelow and Co.? Has John Alexander met them in person? Based on the phone voices etc.,

do they think Alexander/Bigelow et. Al. are somehow involved in the abductions and other anomalies they are experiencing? What do you mean by "anomaly area that encompasses one corner of a house"?

Thanks for any help on this.

Best regards,  
Michael Lindemann

>You all should know that the family living in the anomaly area that encompasses one corner of a house in Black Forest, Colorado is presently negotiating with Robert Bigelow on a buyout of their property. *The Unexplained* A&E show episode recently that was filmed there will be aired sometime within the first 2 weeks of May. Reportedly, "they got a lot on tape -- activity was high".

>

>The show crew made some sort statement that drove the family to tears. And their response has now been to close the area to study and move out. The family is through being ridiculed for seeing what I got on video tape during my recent visit! The family is being followed. There have been attempted abductions of their kids and break-ins to their house. The man hears voices coming through his electronic devices (phones, TV, radios) and in his head saying relentlessly "*if you try to figure this out, we will kill you*". This is the second case that I know of where this has occurred.

>

>The father downloaded a reported 300 pages of information on both Bigelow and Col. John Alexander from the Internet before starting the negotiations. The strange voices he hears seem to be a number of different people -- one of which he has now identified as Col. John Alexander!

Mike,

Call me some evening at (phone number) for the best info. Otherwise, I do not wish to reveal the location at the family's request. Videotaped apparitions, dots/globes, fuzz balls, globs of light. Still pictures of globes, globs, apparitions, time/space twists and shifts. Best place to study all this phenomena yet. It is on the verge of being lost forever. My new techniques allow real-time view of this phenomena for measurement purposes. You see the phenomena occur and video while instruments are placed in the field of view.

How much better do you want?

Techniques -- once seen to work -- can be applied elsewhere as I am attempting to do. It will lead to a real breakthrough in how we observe the phenomena! I know what types of *hyperdimensional*

phenomena photograph with a still camera and what photographs with a video camera and have unique, close-up views of the most odd lights (like reported for hundreds-of-years at many different locations). Events usually occur quickly, so this is one reason we have missed obtaining evidence of their existence to date (there are three historical examples of videoed balls or globs of light so this all does have a history to it). Some lights exhibit intelligent traits.

I taped phenomena myself after seeing the family's shots. I do not know if M. Benjamin was involved and do not know what the crew said to devastate the family emotionally. Stupid media people!

I gave the family Bigelow's phone number. The father wanted to sell and leave everything behind. He has a profit motive, sure. Phenomena doesn't interest him. And he has had attempted kidnappings of his kids, house break-ins, phone taps. In other words, everything I find at every other intense anomaly spot. No one else seems to know that there are a limited number of stationary, cyclical, intense space-time anomaly locations where ETs and other hyperdimensional lifeforms can be contacted. The Government has these staked out and they buy when possible in order to close them to future study.

Negotiations are on hold for the moment. Family has hundreds of pages of info on Bigelow and Co., so they are informed. They may not be able to handle the mind-scanning that occurs during negotiations by people brought in by Alexander.

I can photographically link their location with several others (including one in Russia!). The Government is responsible for apparitions of cammo soldiers with M-16s pointed at witnesses, which can talk! Advanced technology harassment by identified agents of the CIA and FBI. Joint operation. Situation involves even more serious allegations of illegal activities by Federal agencies, making the paranormal activity take a backseat. But I am pledged to not reveal any more because of the threats to their lives which have been made. I only saw/videotaped odd, seemingly natural phenomena which has no current physical scientific explanation. The Government seems to realize that further study will unlock secrets they wish to control.

Alexander is involved with situation, unknown to Bigelow who may be a dupe. This is the best speculation we have to date.

Anomaly area is 100' wide with a focus in a cylindrical area at one corner of the house.

Regards,  
Gary P. Hart
